PROFESSIONAL SUMMARY

Product Owner with 5+ years of experience building Web, Mobile, SaaS, iPaaS, and AI-powered B2B products. Currently at Boomi, owning **platform** and **AI-driven capabilities**, including the design and rollout of organization-wide **Claude AI skills** to improve product planning and edge cases discovery. Experienced in product discovery, roadmap execution, and cross-functional delivery across global engineering, UX, and business teams.

PROFESSIONAL EXPERIENCE

Product Owner | Boomi

Jan 2025 – Present

- Owned product requirements and delivery for Boomi's **Agent Control Tower**, leading cross-functional teams across UX, Engineering, Content, and QA to deliver a production release.
- Led **product strategy** for **Boomi One Platform**, a unified integration and automation platform enabling customers to connect enterprise systems, manage APIs, and automate workflows.
- Designed and deployed **organization-wide Claude AI skills**, improving product planning efficiency and helping teams identify edge cases and gaps in requirements during discovery and planning.
- Defined end-to-end product experiences through PRDs for AI-driven platform features, aligning 10+ stakeholders across product, engineering, and business teams to ensure clarity and execution readiness.

Associate Product Owner | Zibtek

Aug 2022 – Dec 2024

- Increased **customer satisfaction** scores by **30%** and reduced project turnaround time by **25%** through effective lifecycle management, problem-solving, and agile sprint leadership with teams of **23+ members**.
- Enhanced on-time delivery by **15%** by implementing **conflict resolution** and **release planning processes**, to address technical constraints.
- Translated business requirements into **50+ epics**, enabling clear technical communication for engineers while managing backlogs across six products.

Product Management Researcher | INSAID (Accredian)

Dec 2021 – Aug 2022

- Boosted **user engagement** by **25%** and enhanced the learning experience for **650+ users** by leveraging **market research** to inform product strategies.
- Increased **lead capture** by **30%** and expanded market reach through execution of effective product marketing strategies.

Product Intern | Cerebro Teams

Jun 2021 – Aug 2021

- Awarded "Best Employee of the Month" as the only intern to receive this recognition in the first month of the job for optimizing the **product roadmap**, increasing productivity, and reducing development time by **15%**.
- Enhanced sales team experience by designing improved **sales portal workflows** and interfaces using **Figma**.

Project Engineer | Kendram Services

Oct 2018 – Dec 2019

Thoroughly planned a project from inception to execution, outlining timelines, evaluating project risks, and concentrating on the installation of heavy-duty conveyor systems.

OTHER LEADERSHIP AND TEAMWORK EXPERIENCE

- Led project methodology workshops, reaching over **2,000** students and teachers across four Indian states with **Jnana Prabodhini** NGO.
- Contributed to estimating excess COVID-19 deaths in Pune by collaborating with **PMC** and **Pune Knowledge Cluster**, while part of the JPF Analytics team creating a COVID-19 survey and policy report.
- Successfully led crowd control and risk management for over 100,000 attendees during the Ganesh Festival, working alongside Pune Police as part of an NSS initiative.
